Faxing Certificate of Occupancy	\$25.00
Replacement Placard	\$25.00

Floodplain

Any structure located within the floodplain, that is to constructed, added to, altered or otherwise changed requires a WV design professional.

Requirements for obtaining a permit

This is the information required to get your permit under the International Building Code 2009 Edition

These are basic requirements laid out in the code and all of the listed information that is applicable to your permit application is to be provided at the time of application. The only exception to this is the flood elevation certificate, which is to be provided prior to rough in inspection. Permits requiring additional information will be put back into the system at the date all additional information is received. Repetitive submissions of the same model incorrect plans will result in unreviewed plans being returned to the applicant. Any minor changes to the plans will require an approved plan change. Major changes (adding extra space, finishing areas of basements, and reversing plans) will require the permit to be voided and a new permit obtained. Repair specifications for damaged trusses or I joists are to be provided at or prior to the rough in inspection. Changed truss specifications, due to different manufacturer must be submitted as a plan change prior to rough in inspection. Failure to do so will result in a \$50.00 reinspection fee. This applies to either floor or roof trusses. Changing roof lines may require permit to be voided and new application submitted.

The applicant must sign all plans at the time of submission. The permit and approved set of plans must be available on the job site for any inspection. If the job site is not visible from the road then place a sign that is visible at the driveway entrance. In subdivisions, lot numbers are to be posted. Failure to comply with these requirements will result in a not approved inspection and \$50.00 reinspection fee. The inspectors cannot inspect what they cannot find.

Directions to the project are to start from 400 W. Stephen Street. All street names or route #'s to be provided. Directions within the subdivision must also be included (comments like 'to subdivision on left or right' are not acceptable)

Valid water, sewer, well or septic paperwork to be provided at application time. Check the dates before you come in to apply.

All applications require the assessor and planning commission statements signed prior to submission.

Failure to contact this office for any inspections within six (6) months of permit issuance or prior inspection will result in the permit being voided and a condemned sign being placed on work already completed. This sign will not be removed until a new permit has been issued. Persons using or occupying structures without a Use and Occupancy permit will be given notice to vacate until such permit is obtained. A condemned sign will be placed on the structure until the Occupancy permit is obtained. Such condemnation signs are not to be removed by anyone other than Berkeley County Engineering staff.

Pole Buildings require WV Engineer Seal on Plans.

Federal EPA requirements effective April 22, 2010 state that any structure built before 1978 SHALL be tested for Lead Paint by a certified renovator.

Stated Federal Guidelines require existing structures to be tested for Asbestos containing materials prior to remodeling or demolition.

I have read and agree to the above conditions.

Applicant _____ Date _____

BERKELEY COUNTY ENGINEERING AND
BUILDING INSPECTIONS

NOTE TO OWNERS OF PROPERTY WITH RESTRICTIVE COVENANTS:

Your property may be subject to certain restrictive or private covenants especially if you reside in a subdivision. If so, be advised that the offices of Berkeley County do not have jurisdiction over the provisions of those covenants. They are enforced only by the Homeowners' Association. The county enforces only its own rules and regulations.

REQUEST FOR ADDRESS ASSIGNMENT

PROCEDURES:

- Obtain building permit from Engineering Department
- Stake location of the driveway accessing the structure to be addressed prior to the footer inspection by the Engineering Department
- Upon completion of an approved footer inspection, immediately mail for fax the form below to Berkeley County Central Dispatch.
- Receive information of the new address from Central Dispatch.

These steps must be followed to ensure you receive your new address in a timely manner.

** When checking the status of an address assignment or other related questions, contact 304-263-5271. Always refer to the building permit for all inquiries.
